

THE EDGE

For Capital projects ISSI/CSLLC will supply and install cleaners with special pricing. ISSI/Flexco will work with the EPC contractor for proper design installation of the cleaners. This will provide a seamless installation without having to cut/blow holes in freshly painted steel, reducing the risk of the bearing mount assembly being damaged to insure no cutting away of steel would have to occur.

Flexco's *Partners Plus* distributors, like ISSI/CSLLC are strategic partners that have been certified to provide unsurpassed quality installations and service to complement the industry's leading products. Partners Plus Distributors are also certified by Flexco to diagnose problems, recommend solutions, and share advanced knowledge that will help operations maintain their belt conveyor systems and maximize efficiency and output. *We work with you to determine the best solution.* Partners Plus distributors are trained to be experts on specifying, installing, and troubleshooting Flexco products, to ensure you receive the optimal performance from your investment. *We're committed to safety and quality.*
